Subject: RE: project purpose statement

Good afternoon Zach,
Mike is on vacation this week and I'll be running the meeting on his behalf. Your topic below will be on our agenda. The only other topic I'd like to discuss is schedule. We are in the process of adjusting it based on all the known changes (DSEIS/DREIR schedule, Section 7 BO schedule, ROD/NOD schedule) and I'd like to walk through the adjusted schedule with you this week. I think those two topics will pretty much fill our hour.

I will send out an update to Mike's meeting request as the call in number has changed. The update will include an agenda.

Thank you,
Karen

Subject: RE: project purpose statement

Hi Mike,

I would like to add a discussion of the 404 project purpose to the agenda for our Thursday 404/10 meeting.

We can talk about the three goals and the ability to measure these against the actual alternatives and no-project alternative (baseline).

1. protect and restore water supplies of the SWP and the CVP; 2. protect and enhance ecosystem health and productivity in the Delta; and 3. improve water quality

Thanks,
Zach

Subject: RE: project purpose statement

Hi Mike,

I do not have a problem with the draft overall project statement at this time. Please be aware that there are potential concerns with the proposed alternative meeting this project purpose due to water quality concerns.

Zach

Subject: [EXTERNAL] project purpose statement

Hi Zach,

Would it be possible to get a response back on the project purpose statement today? We're moving ahead on the application and EIS and need your buy-off before we go too far.

Thank you,

Mike
